

Oral Presentation Schedule

Nov 8 (Fri) Clinical Research Award

- Session Date & Time : Nov 8, 2019, 10:25-11:40
- Session Room : Room D

Time	Title	Presenter	Country
10:25~10:37	Potential impact of 2018 Korean Society of Hypertension guidelines on Korean population	Ju Seung Kwun	Korea
10:37~10:49	Predictive value of hemoglobin variability on hypertension development	Min Kook Son	Korea
10:49~11:01	Cost-effectiveness analysis of intensive blood pressure control in Korea	Tae Hyun Kim	Korea
11:01~11:13	Two-year clinical outcome between antecedent hypertension and diabetes mellitus in Korean AMI patients after PCI	Yong Hoon Kim	Korea
11:13~11:25	Analysis of Progression and Associated Cardiovascular Risk from Normotension or Prehypertension to Hypertension - Based on Korea National Health Insurance Cohort Based on Korea National Health Insurance Cohort	Kyung-Kuk Hwang	Korea
11:25~11:37	3-dimensional left ventricular mechanics are deteriorated from the early stage of hypertensive patients experiencing morning surge	Chan Seok Park	Korea

Nov 8 (Fri) Young Investigator Award [English Session]

- Session Date & Time : Nov 8, 2019, 12:50-14:05
- Session Room : Room D

Time	Title	Presenter	Country
12:50~13:00	High-fructose intake induces hypertension via activation of pathogenic Th17 lymphocytes in Dahl salt-sensitive rats, but not Dahl salts-resistant rats	Eunjo Lee	Korea
13:00~13:10	Risk of osteoporotic fracture in patients under antihypertensive treatment	Ohkyung Kwon	Korea
13:10~13:20	Differences in prevalence of hypertension subtypes according to the 2018 Korean Society of Hypertension and 2017 American College of Cardiology/American Heart Association Guidelines: The Korean National Health and Nutrition Examination Survey, 2007-2017	So Mi Jemma Cho	Korea
13:20~13:30	Increased cardiac arrhythmia after pregnancy induced hypertension: from the Korean NHIS-HEALS (National Health Insurance System-National Health Screening Cohort) database	Yoonjee Park	Korea
13:30~13:40	Impact of age and sex on the association between uric acid and the risk of incident hypertension	Woohyeun Kim	Korea
13:40~13:50	Difference in Nocturnal Dipping Patterns According to Treatment Strategy and Metabolic Factors: a K-central Substudy	GYU CHUL OH	Korea
13:50~14:00	Optimal Thresholds for Ambulatory Blood Pressure in Patients with High Cardiovascular Risk	Jaehyung Ha	Korea

Nov 8 (Fri) Oral I: International session [English Session]

- Session Date & Time : Nov 8, 2019, 14:30-15:30
- Session Room : Room D

Time	Title	Presenter	Country
14:30-14:42	Artificial Intelligence to Identify Acute Coronary Syndroms: Detection of Vulnerable Coronary Plaques in OCT Images with Deep Learning	Yangyang Deng	China
14:42-14:54	Effect of religion on hypertension in residents Indonesia: A cross-sectional study	Maizul Rahmizal	Indonesia
14:54-15:06	Post Marketing surveillance studies of beta blockers among kidney compromised patients at tertiary care hospital of Jamshoro, Pakistan	Mudassar Iqbal Arain	Pakistan
15:06-15:18	Delayed Time Eating or circadian disruption of our meal time could be more dangerous than you think	Qulsoom Naz	India
15:18-15:30	Gut Microbiota Dysbiosis Regulates Free Fatty Acid Metabolism in Heart Failure Patients with Preserved Ejection Fraction	Manyun Guo	China

Nov 9 (Sat) Oral II: International session [English Session]

- Session Date & Time : Nov 9, 2019, 8:00-9:00
- Session Room : Room B

Time	Title	Presenter	Country
08:00-08:12	THE IMPACT OF TIME PRESSURE ON QUALITY OF AUDIT RISK ASSESSMENT: DOES BLOOD PRESSURE PLAY A ROLE?	Frida Fanani Rohma	Indonesia
08:12-08:24	Cognitive Impairment, Hypertension, and Dyslipidemia in Sarcopenia of Urban Elderly in Community-Dwelling of West Jakarta, Indonesia	Thania Vinsalia	Indonesia
08:24-08:36	Epidemiology of Hypertension in North India: A comprehensive study of anthropometric and socio-economic factors related to hypertension across diverse social groups in North India	Dr. Smriti Rastogi	India
08:36-08:48	Fabrication, characterization of PLGA loaded nano-particle of umbelliferone exhibited the antihypertensive and Vasorelaxant effect on rats via endothelium-dependent and endothelium-independent pathways	Vikas Kumar	India
08:48-09:00	Estimation of cell free plasma DNA in Gestational Diabetes Mellitus: a non-invasive approach	DEEPIKA MISRA	India

Nov 9 (Sat) Oral III: International session [English Session]

- Session Date & Time : Nov 9, 2019, 8:00-9:00
- Session Room : Room C

Time	Title	Presenter	Country
08:00-08:12	Disrupted Biological Rhythm Impede Neuroplasticity After Stroke	Poonam Chaturvedi	India
08:12-08:24	Comparison of Risk Factors for Major Adverse Cardiovascular Events (MACE) in Patients with Type-2 Diabetes & Non-diabetes: A Population-based Study	Atika Budhy Setyani	Indonesia
08:24-08:36	Effect Of Type 2 Diabetes Melitus (DM) Duration On Trombosit Numbers And Mean Platelet Volume (MPV) Blood Of Carotis Communos Arterial Post Ligase Rats	Nabila -	Indonesia
08:36-08:48	Prevalence and its Associated Factors for Knowledge, Attitude and Practice of Lifestyle Preventive Measures Against Diabetes Mellitus: A Community Programme	JUN XUN NG	Malaysia
08:48-09:00	Long term prognosis of patients who presented hypertensive emergency and urgency in Mongolia	Dashdemberel Khatanbaatar	Mongolia
